## Our Third Engine is Running and the Fourth is in the Final Assembly

Not much to see but lots to hear! Following the last Lancaster Run-up of the season, our #2 Merlin was started for the first time (sans propeller). A few minor problems were found and are being corrected. The #1 (port-outer) is well-along in the shop and both port propellers are being serviced.

So . . . We hope that 2013 will see Lancaster run-ups with all four engines operational. What a great way to celebrate the 25<sup>th</sup> Anniversary of our all-volunteer Restoration Shop Program!
