

A BOMBER COMMAND MUSEUM OF CANADA BULLETIN

2013-09-17

Running Four Engines on the Lancaster

Our museum is pleased and proud to announce that our Lancaster is now one of four in the world with four running engines.

FIRING-UP FOUR –A 54 Year Odyssey

Please join us on September 20th and 21st as we celebrate this important milestone in the museum's history.

The Lancaster last ran with four engines on February 12, 1959 when it landed at the former Vulcan BCATP base to be scrapped. Thanks to a huge effort by hundreds of volunteers over the past 54 years we've not only saved her but brought Lancaster FM159 back to life.

TERRY CHESTER, CD, National President, Air force Association of Canada

As c/o of 407 Maritime Patrol Squadron, Terry was present at the Dedication of our Lancaster to S/L Ian Bazalgette VC DFC in 1990. Terry retired with the rank of Colonel following a distinguished career

spanning 42 years and some 10,000 hours of flying. We are pleased to welcome Terry back to Nanton as

our Guest Speaker for the first official run-up of our former 407 Squadron aircraft.
